# All Things Agentic Hackathon

42–53 minutes

---

## All things agentic hackathon Official Eligibility and Rules

NO PURCHASE NECESSARY TO ENTER OR WIN. VOID WHERE PROHIBITED. CONTEST IS OPEN TO EVERYONE EXCEPT FOR RESIDENTS OF ITALY, QUEBEC, CRIMEA, CUBA, IRAN, SYRIA, NORTH KOREA, SUDAN, BELARUS, RUSSIA, AND OR AS LISTED AS INELIGIBLE IN THE ELIGIBILITY SECTION BELOW.

ENTRY IN THIS CONTEST CONSTITUTES YOUR ACCEPTANCE OF THESE OFFICIAL RULES.

All things agentic hackathon (the “Contest”) is a skill contest where Google will share specific challenges set forth in these Rules as well as in the Devpost page for this Contest, and participants must develop solutions to one of the challenges. The solution that you develop and submit will be evaluated by judges, who will choose the winner(s) in accordance with these Official Rules. The prize(s) will be awarded to the participant(s) with the highest score for the judging criteria. See below for the complete details.

### 1. BINDING AGREEMENT:

In order to enter the Contest, you must agree to these Official Rules (“Rules”). Therefore, please read these Rules prior to entry to ensure you understand and agree. You agree that submission of an entry in the Contest constitutes agreement to these Rules. You may not submit an entry to the Contest and are not eligible to receive the prizes described in these Rules unless you agree to these Rules. These Rules form a binding legal agreement between you and Google with respect to the Contest.

The Contest is sponsored by Google LLC (“Google” or “Sponsor”), a Delaware corporation located at 1600 Amphitheater Parkway, Mountain View, CA, 94043, USA. The Contest will be administered by Devpost, Inc. (“Devpost” or “Administrator”) located at 250 Broadway, 24 Floor, New York, NY 10007.

### **3. ELIGIBILITY:**

To be eligible to enter the Contest, you must: (1) be above the age of majority in the country, state, province or jurisdiction of residence (or at least twenty years old in Taiwan) at the time of entry; (2) not be a resident of Italy, Quebec, Crimea, Cuba, Iran, Syria, North Korea, Sudan, Belarus, Russia and any other country designated by the United States Treasury's Office of Foreign Assets Control; (3) not be a person or entity under U.S. export controls or sanctions; and (4) have access to the Internet as of August 3, 2026. Contest is void where prohibited by law.

Employees, interns, contractors, and official office-holders of Google, Devpost, Inc., or any organizations involved with the design, production, paid promotion, execution, or distribution of the Contest, and their parent companies, subsidiaries, affiliates, and

their respective directors, officers, employees, advertising and promotion agencies, representatives, and agents or their immediate family or members of their household (“Contest Entities”), and members of the Contest Entities’ and their immediate families (parents, siblings, children, spouses, and life partners of each, regardless of where they live) and members of the households (whether related or not) of such employees, officers and directors are ineligible to participate in this Contest. Sponsor reserves the right to verify eligibility and to adjudicate on any dispute at any time. Persons who are (1) residents of US embargoed countries, (2) ordinarily resident in US embargoed countries, or (3) otherwise prohibited by applicable export controls and sanctions programs may not participate in this contest. In addition, individuals or organizations that are employed by a government agency, or any other individual or organization whose participation in the Contest would create, in the sole discretion of the Sponsor and/or Administrator, a real or apparent conflict of interest are ineligible to participate in this Contest.

If you are entering as part of a company or on behalf of your employer, these rules are binding on you, individually, and/or your employer. If you are acting within the scope of your employment, as an employee, contractor, or agent of another party, you warrant that such party has full knowledge of your actions and has consented thereto, including your potential receipt of a prize. You further warrant that your actions do not violate your employer’s or company’s policies and procedures.

#### **4. CONTEST PERIOD:**

ENTRANTS ARE RESPONSIBLE FOR DETERMINING THE CORRESPONDING TIME ZONE IN THEIR RESPECTIVE JURISDICTIONS.

### **Dates and Timing**

The Contest begins at 9:00 A.M. Pacific Time (PT) Zone in the United States on August 3, 2026 and ends at 5:00 P.M. PT on August 31, 2026 (“Contest Period”).

**Submission Period:** August 3, 2026 (09:00 A.M. Pacific Time) – August 31, 2026 (5:00 P.M. Pacific Time) (“Submission Period”).

**Judging Period:** September 1, 2026 (9:00 A.M. Pacific Time) – October 1, 2026(11:45 P.M. Pacific Time) (“Judging Period”).

**Winners Announced:** On or around October 8, 2026 (10:00 A.M. Pacific Time).

### **5. HOW TO ENTER:**

NO PURCHASE NECESSARY TO ENTER OR WIN. To enter the Contest, visit the Contest website located at [allthingsagentichackathon.devpost.com](https://allthingsagentichackathon.devpost.com) (“Contest Site”) during the Contest Period, find the challenges provided by Google on the Devpost site, which challenges are also set forth in these Rules and develop a solution for the challenge.

**To access the challenge and submit the solution, follow the steps below**

- Obtain access to the submission portal. You must have a Devpost account to register for the Contest as they will administer the Contest. If you do not have a Devpost account already, you can sign up for a Devpost account at no cost from the Contest Site.

- Obtain access to Google Cloud developer tools. Access to Google Cloud may be obtained by (1) signing up for a no cost trial at <https://cloud.google.com/free> or (2) using an existing Google Cloud account for which you may request \$150 in Google Cloud credits by completing this form by **August 28th at 12:00 pm PT or while supplies last**: <https://forms.gle/riGhgDSHkHeMx8Ca6>. Each Entrant may request one code. The request will be reviewed within 72 business hours of completing the form. Provision of credits to you is not guaranteed and at the discretion of the Sponsor and Administrator. You are responsible for any and all fees accrued from use of Google Cloud developer tools if your use of these tools in connection with this Contest exceeds the \$150 credit amount.
- When submitting information to request a credit, your data will be processed in accordance with the Google Privacy Policy at <https://policies.google.com/privacy>. Use of Google Cloud Google Cloud developer tools will be subject to the license agreement applicable to the use of those services.
- Entry in the Contest constitutes consent for the Sponsor and Devpost to collect and maintain an entrant's personal information for the purpose of operating and publicizing the Contest.
- Create a project in line with the Project Requirements below.
- Submit Your project to the Contest Site. Make sure to complete and enter all of the required fields on the "Enter a Submission" or similar worded page of the Contest Site (each a "Submission") during the Contest Period.

## 6. Submission Requirements:

Please find the Application Requirements and Submission Requirements outlined below (hereinafter, referred to collectively as the “Requirements”).

### **What to Create:**

Build and deploy a next-generation, autonomous AI Agent leveraging Gemini 3.5 that operates beyond standard chat loops. The system can run asynchronously in the background, handle the heavy lifting of complex workflows, or dynamically manipulate data pipelines and representations.

**Mandatory for all categories:** 1) Gemini 3.5 or newer accessed through Gemini API or Vertex AI, 2) AND at least one Google Agent Framework: Google ADK, GenAI SDK, Antigravity SDK or GenKit 3) AND at least one Google Cloud infrastructure service (such as Cloud Run, Cloud SQL, Firestore, GKE, Pub/Sub).

Projects must be built within one of these three categories:

1. **Taskmaster:** Build a Complete Workflow, Not Just a Chatbot. Don't just make an agent that writes text. Make one that takes action. Find a messy, multi-step chore in your job, classes, or personal life. Build an agent that handles the details, sends the right info to the right places, and proves it can do the heavy lifting for you.
2. **Collaborative Partner:** Build an agent that leads the way and takes notes. It should ask clarifying questions, guide the user step-by-step, and have a clear way to capture feedback, so it constantly adapts to the user's unique way of thinking.
3. **Fortified Enterprise Fleet:** Build a scalable network of institutional agents that hook into official enterprise infrastructure.

Teams must demonstrate how agents are cataloged for cross-department use, how they safely maintain context across weeks of asynchronous operations, and how they interact with production data without violating enterprise compliance, data sovereignty, or security policies.

1. **Discovery & Lifecycle:** Agent Registry (the central repository for publishing, versioning, and discovering enterprise-approved agents).
2. **Core Execution & State:** Agent Runtime (for long-running, asynchronous background execution) and Memory Bank (for persistent, secure cross-session context over extended timelines).
3. **Security & Governance:** Agent Identity (For zero-trust access control), Agent Gateway (for unified routing and policy enforcement), and Model Armor (inline guardrails to block prompt injection, tool poisoning, and PII leaks).
4. **Telemetry:** Agent Observability (OpenTelemetry-compliant audit logs and end-to-end reasoning chain traces).

#### 1. **Recommended Tech to use (Gemini Enterprise Agent Platform):**

**Project Team:** You may submit your Project as an individual, a team, or on behalf of an organization. A Team must consist of only Eligible Individuals, have all team members added as members of the Project on Devpost. If a team or Organization is entering the Submission, one individual must be appointed and authorized (the “Representative”) to represent, act, and enter the Submission, on the team’s behalf.

**Functionality:** The Project must be capable of being successfully

installed and run consistently on the platform for which it is intended, and must function as depicted in the video and/or expressed in the text description that you submit with the Project.

**New Projects Only:** Projects must be newly created during the Submission Period. Participants may use standard development tools, including frameworks, libraries, starter templates, and AI coding assistants, but must disclose any other pre-existing code or work incorporated into the Project. The work described and submitted must have been built during the Submission Period.

**Third-Party Integrations:** If a Project integrates any third-party SDK, APIs, data and/or any information belonging to a third party, Entrants must be authorized to use these third-party tools and information in accordance with any terms and conditions or licensing requirements of the tool.

**Testing:** Access must be provided to an Entrant's working Project (if available) for judging and testing by providing a link to a website, functioning demo, or a test build. If Entrant's website is private, Entrant must include login credentials in its testing instructions. The Entrant must make the Project available free of charge and without any restriction, for testing, evaluation and use by the Sponsor, Administrator and Judges until the Judging Period ends. Judges are not required to test the Project and may choose to judge based solely on the text description, images, and video provided in the Submission.

If the Project includes software that runs on proprietary or third-party hardware that is not widely available to the public, including software running on devices or wearable technology other than smartphones, tablets, or desktop computers, the Sponsor and/or

Administrator reserve the right, at their sole discretion, to require the Entrant to provide physical access to the Project hardware upon request.

**Language:** The Application must, at a minimum, support English language use. All Submission materials must be in English or, if not in English, the Entrant must provide an English translation of the demonstration video, text description, and testing instructions as well as all other materials submitted.

**Multiple Submissions:** An Entrant may submit more than one Submission, however, each Submission must be unique and substantially different from each of the Entrant's other Submissions, as determined by the Sponsor and Devpost in their sole discretion.

**Submission ownership:** Be the original work of the Entrant, be solely owned by the Entrant, and not violate the IP rights of any other person or entity.

**Intellectual Property:** Your Submission must: (a) be your (or your Team, or Organization's) original work product; (b) be solely owned by you, your Team, your Organization with no other person or entity having any right or interest in it; and (c) not violate the intellectual property rights or other rights including but not limited to copyright, trademark, patent, contract, and/or privacy rights, of any other person or entity. An Entrant may contract with a third party for technical assistance to create the Submission provided the Submission components are solely the Entrant's work product and the result of the Entrant's ideas and creativity, and the Entrant owns all rights to them. An Entrant may submit a Submission that includes the use of open source software or hardware, provided

the Entrant complies with applicable open source licenses and, as part of the Submission, creates software that enhances and builds upon the features and functionality included in the underlying open source product. By entering the Contest, you represent, warrant, and agree that your Submission meets these requirements.

**Financial or Preferential Support:** A Project must not have been developed, or derived from a Project developed, with financial or preferential support from the Sponsor or Administrator. Such Projects include, but are not limited to, those that received funding or investment for their development, were developed under contract, or received a commercial license, from the Sponsor or Administrator any time prior to the end of Contest Submission Period. The Sponsor, at their sole discretion, may disqualify a Project, if awarding a prize to the Project would create a real or apparent conflict of interest.

**Submission Requirements - Entries to the Contest must meet the following requirements:**

- Include a **Project** built with the required developer tools and meets the above Submission Requirements.
- Select **one category** which represents your project. Please note that Submissions will be associated by the category selected. The Sponsor and Administrator reserve the right to reassign a Submission from one category to another if applicable.
- Include a **URL to the hosted Project** (if available) for judging and testing, such as web UI, Chrome Extension, mobile app, etc. A *hosted project is highly encouraged*.
- Include a **text description** that should include a summary of the

Project's features and functionality, technologies used, information about any other data sources used, and your findings and learnings as you worked through the project.

- Include a **URL to your private or public code repository** (on Github, Gitlab or Bitbucket) to show how your project was built. If private, must give access to [testing@devpost.com](mailto:testing@devpost.com) and [cloudfhackathons@google.com](mailto:cloudfhackathons@google.com)
- **Spin-up Instructions:** A step-by-step guide in your README.md explaining how to set up and run the project locally or deploy it to the cloud. Even if the judges do not run it, these instructions prove the project is reproducible.
- Include an **Architecture Diagram** with a clear visual representation of your system (e.g., how Gemini connects to your backend, database, and frontend).
- Include a **demonstration video** of your Project. The video portion of the Project:
- Should include a **short overview of the problem** your Project is solving, the **value proposition** as well as a **demo of the application in action. Must demonstrate the backend is running on Google Cloud** (ie: Google Cloud Console, Cloud Run dashboard, Vertex AI logs, URL of .run, etc)
- It should not be longer than 4 minutes. If it is longer than 4 minutes, only the first 4 minutes may be evaluated.
- It must conform to the technical requirements set forth on the Contest site, including that the Submission must be uploaded to and made publicly visible on YouTube or Vimeo, and a link to the video must be provided on the Submission form on the Contest

Site.

- It **must be in English** or include English subtitles.
- No parts of the submission can be derogatory, offensive, threatening, defamatory, disparaging, libelous or contain any content that is inappropriate, indecent, sexual, profane, indecent, tortuous, slanderous, discriminatory in any way, or that promotes hatred or harm against any group or person, or otherwise does not comply with the theme and spirit of the Contest.
- No part of that submission contains content, material or any element that is unlawful, or otherwise in violation of or contrary to all applicable federal, state, or local laws and regulations in any country, state or applicable territory where you created the video and in the United States.
- The Submission must not contain any content, material or element that displays any third party advertising, slogan, logo, trademark or otherwise indicates a sponsorship or endorsement by a third party, commercial entity or that is not within the spirit of the Contest, as determined by Sponsor, in its sole discretion.
- It cannot contain any content, element, or material that violates a third party's publicity, privacy or intellectual property rights.
- **Optional Developer Contributions:** Submit the following optional components to positively impact the score the submission receives from the Judges.
- Publish a **piece of content** (blog, podcast, video): Covering how the project was built on any public platform (e.g., medium.com, [dev.to](https://dev.to), YouTube, etc.). The content must be public (not unlisted). You must include language that says you created the piece of

content for the purposes of entering this hackathon.

- Publish a **social media post**: Highlight or promote your project on social media post on X, LinkedIn, Instagram, or Facebook. For any social media posts on platforms such as X or LinkedIn, include the hashtag #AllThingsAgentic Hackathon.
- Successfully integrate Google AI models such as Gemma, Veo or Lyria.

## 7. SUBMISSION MODIFICATIONS:

### Draft Submissions

Prior to the end of the Submission Period, you may save draft versions of your submission on Devpost to your portfolio before submitting the Submission materials to the Hackathon for evaluation. Once the Submission Period has ended, you may not make any changes or alterations to your Submission, but you may continue to update the Project in your Devpost portfolio.

### Modifications After the Submission Period

The Sponsor and Devpost may permit you to modify part of your Submission after the Submission Period for the purpose of adding, removing or replacing material that potentially infringes a third party mark or right, discloses personally identifiable information, or is otherwise inappropriate. The modified Submission must remain substantively the same as the original Submission with the only modification being what the Sponsor and Devpost permits.

## 8. JUDGING:

Sponsor and Administrator reserve the sole right to determine the eligibility and judging methodologies for all submissions. This process may utilize expert panels, peer review, automated AI-driven analysis, or any combination thereof to ensure efficient, fair, and objective evaluation. Eligible submissions will be evaluated by a panel of judges selected by the Sponsor (the “Judges”). Judges may be employees of the sponsor or third parties, may or may not be listed individually on the Hackathon Website, and may change before or during the Judging Period. Judging may take place in one or more rounds with one or more panels of Judges, at the discretion of the sponsor.

The Submissions will be evaluated by the Judges in the following Stages:

- **Stage One:** The first stage will determine via pass/fail whether the Submission meets a baseline level of viability, in that the Submission includes all Submission requirements, reasonably addresses a Challenge, and reasonably applies the requirements.
- **Stage Two:** All Submissions that pass Stage One will be evaluated in Stage Two by the Judges based on the following weighted criteria, and according to the sole and absolute discretion of the Judges. Each Submission will receive a score from 1 to 5 per criterion and those criterion scores will be averaged per Submission.

### **Innovation & Operational Utility (40%)**

Does the system eliminate real-world friction? Is the "Twist" present? We are looking for high-value, autonomous execution over simple chat queries.

- For TaskMaster: Does the agent successfully intercept and

complete a multi-step background workflow without human intervention? Did the team successfully utilize the "Bring Your Own Friction" (BYOF) mandate to solve a unique, personal problem?

- For Collaborative Partner: Does the agent actively synthesize or mutate data, rather than just reading it? Did the team ingest unusual, messy, or highly complex unstructured data streams?
- For Fortified Enterprise Fleet: Is the task complex enough to warrant a multi-agents system? Does the system intelligently delegate tasks to specialized sub-agents? Did they build this for an "Unlikely Hero" outside of standard corporate roles?

### **Architectural Discipline & Tech Stack (30%)**

We are evaluating your engineering decisions, not just your ability to call an API. How well did your team decouple systems, manage state, and design robust, failure-tolerant agentic systems?

- For The Continuous Action Engine: Judges will look for a robust architecture. Did you implement a clean, modularized, ease of maintenance system? How does the system handle state management? Are the tools properly isolated and scoped for security?
- For The Evolving Knowledge Engine: Judges will evaluate your data architecture. This includes intelligent schema design, efficient vector embedding strategies. How efficiently does the system manage massive context windows?
- For The Multi-Agent Nexus: Judges are looking for good use of agent workflows. Is there a clear, strictly enforced separation of concerns between agents? Is the inter-agent routing logic failure-tolerant (e.g., how does the system recover if a worker agent loops

or returns a hallucination)?

## Demo & Production Readiness (30%)

The clarity of the technical documentation and the undeniable proof of execution in the video pitch. Does the 4-minute video clearly define the friction being solved and explain the architecture?

- The Proof of Action: Does the video show an unedited, live execution of the agent performing its task (via terminal logs, database updates, or UI changes)?
- The Documentation: Does the public GitHub repository feature a clean architecture diagram and reproducible setup instructions? Is there visual proof of Google Cloud deployment in the video?
- **Stage Three:** The Submissions that pass Stage One and Two will be evaluated based on Bonus Contributions outlined in Section 6:
- **Optional Developer Contributions:** Submit the following optional components to positively impact the score the submission receives from the Judges.
- Publish a piece of content (blog, podcast, video): Cover how the project was built on any public platform (e.g., medium.com, [dev.to](https://dev.to), Youtube, etc.). The content must be public (not unlisted). You must include language that says you created the piece of content for the purposes of entering this hackathon, a maximum of 0.2 points will be added
- Publish a social media post: Highlight or promote your project on social media post on X, LinkedIn, Instagram, or Facebook. For any social media posts on platforms such as X or LinkedIn, include the hashtag #AllThingsAgenticHackathon. A maximum of 0.2 points

will be added

- Earn 0.2 bonus points for each additional Google AI model successfully integrated (such as Gemma, Veo, or Lyria), up to a maximum of 0.6 total bonus points

Each Submission will receive a Final score from 1 to 6, with the highest possible Final score being 6.

The highest-scoring Submission for each category will be selected as the potential winner(s). The highest-scoring Submission across all categories will win the Grand Prize. Ties will be broken by comparing scores on each criterion in the order listed, and if a tie remains, judges will vote. If a potential winner is disqualified, the Submission with the next highest score will become the potential winner. Determinations of judges are final and binding.

The award of a prize to a potential winner is subject to verification of the identity, qualifications and role of the potential winner in the creation of the Submission. No Submission or individual shall be deemed a winning Submission or winner until their post-competition prize affidavits have been completed and verified, even if prospective winners have been announced verbally or on the competition website. The final decision to designate a winner shall be made by the Sponsor and/or Administrator. A Submission can win a maximum of one prize. In the event that no entries are received for a region, no prize will be awarded.

The potential winner(s) will be selected and may be notified by email, at Sponsor's discretion for Winner Verification Requirement (as defined below). If a potential winner does not respond to the notification attempt within two days from the first notification

attempt, then such potential winner will be disqualified and an alternate potential winner will be selected from among all eligible entries received based on the judging criteria described herein. Except where prohibited by law, each potential winner may be required to sign and return a Declaration of Eligibility and Liability and Publicity Release and provide any additional information that may be required by Sponsor. If required, potential winners must return all such required documents within two days following attempted notification or such potential winner will be deemed to have forfeited the prize and another potential winner will be selected based on the judging criteria described herein. All notification requirements, as well as other requirements within these Rules, will be strictly enforced.

“Winner Verification Requirement” means THE AWARD OF A PRIZE TO A POTENTIAL WINNER IS SUBJECT TO VERIFICATION OF THE IDENTITY, QUALIFICATIONS AND ROLE OF THE POTENTIAL WINNER IN THE CREATION OF THE SUBMISSION. No Submission or individual shall be deemed a winning Submission or winner until their post-competition prize affidavits have been completed and verified, even if prospective winners have been announced verbally or on the competition website. The final decision to designate a winner shall be made by the Sponsor and/or Administrator.

Determinations of judges are final and binding.

## **9. PRIZES:**

| Winner         | Prize                                                                                                                                                                                                                      | Quantity | Eligible                                                 |

- Each Project is eligible for up to one (1) Prize.

**C. Terms Applicable to All Prizes.**

Cash Prize Delivery: Cash Prizes will be payable to the winner, if an individual; to the winning team’s Representative, if a team; or to the organization, if the winning team is an Organization. It will be

the responsibility of the winning team's or organization's Representative to allocate the Prize among their team or organization's participating members, as the Representative deems appropriate. A monetary Prize will be mailed to the winner's address (if an individual) or the Representative's address (if a team or organization), or sent electronically to the winner, winning teams Representative, or organization's bank account, only after receipt of the completed winner affidavit and other required forms (collectively the "Required Forms"), if applicable. The deadline for returning the Required Forms to the Administrator is ten (10) business days after the Required Forms are sent. Failure to provide correct information on the Required Forms, or other correct information required for the delivery of a Prize, may result in delayed Prize delivery, disqualification of the individual, team or organization or forfeiture of a Prize. Prizes will be delivered within sixty (60) days of the Sponsor or Devpost's receipt of the completed Required Forms.

None of the non-cash prizes are redeemable for cash. The approximate retail value (ARV) may be adjusted depending on the country, state or jurisdiction of residence of the winner. All travel arrangements will be made by the traveler (or another party on traveler's behalf) in its sole discretion. Travelers may be required to provide proof of travel, relevant receipts and sign and return additional Prize-related documents as are provided by Sponsor, or provide additional information as requested by Sponsor, including without limitation for purposes of receiving the reimbursement for the Travel Prize reimbursement.

Odds of winning any prize depends on the number of eligible entries received during the Contest Period and the skill of the

entrants. No transfer, substitution or cash equivalent for prize(s) is allowed, except at Sponsor's sole discretion. Sponsor reserves the right to substitute a prize, in whole or in part, of equal or greater monetary value if a prize cannot be awarded, in whole or in part, as described for any reason. Value is subject to market conditions, which can fluctuate and any difference between actual market value and ARV will not be awarded. The prize(s) may be subject to restrictions and/or licenses and may require additional hardware, software, service, or maintenance to use. The winner shall bear all responsibility for use of the prize(s) in compliance with any conditions imposed by such manufacturer(s), and any additional costs associated with its use, service, or maintenance. Contest Entities have not made and Contest Entities are not responsible in any manner for any warranties, representations, or guarantees, express or implied, in fact or law, relating to the prize(s), regarding the use, value or enjoyment of the prize(s), including, without limitation, its quality, mechanical condition, merchantability, or fitness for a particular purpose, with the exception of any standard manufacturer's warranty that may apply to the prize(s) or any components thereto.

#### **10. FEES & TAXES:**

Winners (and in the case of team or organization, all participating members) are responsible for any fees associated with receiving or using a prize, including but not limited to, wiring fees or currency exchange fees. Winners (and in the case of team or organization, all participating members) are responsible for reporting and paying all applicable taxes in their jurisdiction of residence (federal, state/provincial/territorial and local). Winners may be required to provide

certain information to facilitate receipt of the award, including completing and submitting any tax or other forms necessary for compliance with applicable withholding and reporting requirements. United States residents may be required to provide a completed form W-9 and residents of other countries may be required to provide a completed W-8BEN form. Winners are also responsible for complying with foreign exchange and banking regulations in their respective jurisdictions and reporting the receipt of the Prize to relevant government departments/agencies, if necessary. The Sponsor, Devpost, and/or Prize provider reserves the right to withhold a portion of the prize amount to comply with the tax laws of the United States or other Sponsor jurisdiction, or those of a winner's jurisdiction.

#### **11. GENERAL CONDITIONS:**

All federal, state, provincial and local laws and regulations apply. Google reserves the right to disqualify any entrant from the Contest if, in Google's sole discretion, it reasonably believes that the entrant has attempted to undermine the legitimate operation of the Contest by cheating, deception, or other unfair playing practices or annoys, abuses, threatens or harasses any other entrants, Google, or the Judges.

#### **12. INTELLECTUAL PROPERTY RIGHTS:**

To the extent your or your team or organization's Submission makes use of generally commercially available software not owned by you or your team or organization that was used to generate the Submission, but that can be procured by Google without undue

expense, you do not grant the license in the preceding sentence to that software.

As between Google and the entrant, all Submissions remain the intellectual property of the individuals or organizations that developed them. The entrant retains ownership of all intellectual and industrial property rights (including moral rights) in and to any project materials, or videos provided for the Contest. As a condition of entry, entrant grants Google, its subsidiaries, agents and partner companies, a perpetual, irrevocable, worldwide, royalty-free, and non-exclusive license to use, reproduce, adapt, modify, publish, distribute, publicly perform, create a derivative work from, and publicly display such Project(s) (1) for the purposes of allowing Google and its affiliates and the Judges to evaluate the Project for purposes of the Contest, and (2) in connection with advertising and promotion via communication to the public or other groups, including, but not limited to, the right to make screenshots, animations and video clips available for promotional purposes.

### **13. PRIVACY:**

Participant acknowledges and agrees that Google may collect, store, share and otherwise use personally identifiable information provided during the registration process and the contest, including, but not limited to, name, mailing address, phone number, and email address. Google will use this information in accordance with its Privacy Policy (<http://www.google.com/policies/privacy/>), including for administering the contest and verifying Participant's identity, postal address and telephone number in the event an entry qualifies for a prize.

Participant's information may also be transferred to countries outside the country of Participant's residence, including the United States. Such other countries may not have privacy laws and regulations similar to those of the country of Participant's residence.

If a participant does not provide the mandatory data required at registration, Google reserves the right to disqualify the entry.

Participant has the right to request access, review, rectification or deletion of any personal data held by Google in connection with the Contest by writing to Google at this email address [cloudfhackathons@google.com](mailto:cloudfhackathons@google.com).

#### **14. PUBLICITY:**

By participating in the Hackathon, Entrant consents to the promotion and display of the Entrant's Submission, and to the use of personal information about themselves for promotional purposes, by the Sponsor, Administrator, and third parties acting on their behalf. Such personal information includes, but is not limited to, your name, likeness, photograph, voice, opinions, comments and hometown and country of residence. It may be used in any existing or newly created media, worldwide without further payment or consideration or right of review, unless prohibited by law. Authorized use includes but is not limited to advertising and promotional purposes.

#### **15. WARRANTY, INDEMNITY AND RELEASE:**

Entrants warrant that their Submissions are their own original work

and, as such, they are the sole and exclusive owner and rights holder of the submitted Submission and that they have the right to submit the Submission in the Contest and grant all required licenses, except that to the extent your or your team or organization's Submission makes use of generally commercially available software not owned by you or your team or organization that was used to generate the Submission, but that can be procured by Google without undue expense, you do not grant the license in the preceding sentence to that software. Each entrant agrees not to submit any Submission that (1) infringes any third party proprietary rights, intellectual property rights, industrial property rights, personal or moral rights or any other rights, including without limitation, copyright, trademark, patent, trade secret, privacy, publicity or confidentiality obligations; or (2) otherwise violates the applicable state or federal law. Each entrant further represents and warrants that it has the necessary rights and licenses to use any and all data used in or for the Submission and otherwise as necessary for the terms hereunder. To the maximum extent permitted by law, each entrant indemnifies and agrees to keep indemnified Contest Entities at all times from and against any liability, claims, demands, losses, damages, costs and expenses resulting from any act, default or omission of the entrant and/or a breach of any warranty set forth herein. To the maximum extent permitted by law, each entrant agrees to defend, indemnify and hold harmless the Contest Entities from and against any and all claims, actions, suits or proceedings, as well as any and all losses, liabilities, damages, costs and expenses (including reasonable attorneys fees) arising out of or accruing from (a) any Submission or other material uploaded or otherwise provided by the entrant that infringes any copyright, trademark, trade secret,

trade dress, patent or other intellectual property right of any person or defames any person or modifies their rights of publicity or privacy, (b) any misrepresentation made by the entrant in connection with the Contest; (c) any non-compliance by the entrant with these Rules; (d) claims brought by persons or entities other than the parties to these Rules arising from or related to the entrant's involvement with the Contest; and (e) acceptance, possession, misuse or use of any prize or participation in any Contest-related activity or participation in this Contest.

Entrant releases Google from any liability associated with: (a) any malfunction or other problem with the Contest Site; (b) any error in the collection, processing, or retention of entry information; or (c) any typographical or other error in the printing, offering or announcement of any prize or winners.

#### **16. ELIMINATION:**

Any false information provided within the context of the Contest by any entrant concerning identity, mailing address, telephone number, email address, ownership of right or non-compliance with these Rules or the like may result in the immediate elimination of the entrant from the Contest.

#### **17. INTERNET:**

Contest Entities are not responsible for any malfunction of the entire Contest Site or any late, lost, damaged, misdirected, incomplete, illegible, undeliverable, or destroyed Submissions or entry materials due to system errors, failed, incomplete or garbled computer or other telecommunication transmission malfunctions,

hardware or software failures of any kind, lost or unavailable network connections, typographical or system/human errors and failures, technical malfunction(s) of any telephone network or lines, cable connections, satellite transmissions, servers or providers, or computer equipment, traffic congestion on the Internet or at the Contest Site, or any combination thereof, including other telecommunication, cable, digital or satellite malfunctions which may limit an entrant's ability to participate.

#### **18. RIGHT TO CANCEL, MODIFY OR DISQUALIFY:**

If for any reason the Contest is not capable of running as planned, including infection by computer virus, bugs, tampering, unauthorized intervention, fraud, technical failures, or any other causes which corrupt or affect the administration, security, fairness, integrity, or proper conduct of the Contest, Google reserves the right at its sole discretion to cancel, terminate, modify or suspend the Contest. Google further reserves the right to disqualify any entrant who tampers with the submission process or any other part of the Contest or Contest Site. Any attempt by an entrant to deliberately damage any web site, including the Contest Site, or undermine the legitimate operation of the Contest is a violation of criminal and civil laws and should such an attempt be made, Google reserves the right to seek damages from any such entrant to the fullest extent of the applicable law.

#### **19. NOT AN OFFER OR CONTRACT OF EMPLOYMENT:**

Under no circumstances shall the submission of a Submission into the Contest, the awarding of a prize, or anything in these Rules be

construed as an offer or contract of employment with either Google, or the Contest Entities. You acknowledge that you have submitted your Submission voluntarily and not in confidence or in trust. You acknowledge that no confidential, fiduciary, agency or other relationship or implied-in-fact contract now exists between you and Google or the Contest Entities and that no such relationship is established by your submission of a Submission under these Rules.

## **20. FORUM AND RECOURSE TO JUDICIAL PROCEDURES:**

These Rules shall be governed by, subject to, and construed in accordance with the laws of the State of California, United States of America, excluding all conflict of law rules. If any provision(s) of these Rules are held to be invalid or unenforceable, all remaining provisions hereof will remain in full force and effect. To the extent permitted by law, the rights to litigate, seek injunctive relief or make any other recourse to judicial or any other procedure in case of disputes or claims resulting from or in connection with this Contest are hereby excluded, and all Participants expressly waive any and all such rights.

## **21. ARBITRATION:**

By entering the Contest, you agree that exclusive jurisdiction for any dispute, claim, or demand related in any way to the Contest will be decided by binding arbitration. All disputes between you and Google of whatsoever kind or nature arising out of these Rules, shall be submitted to Judicial Arbitration and Mediation Services, Inc. ("JAMS") for binding arbitration under its rules then

in effect in the San Jose, California, USA area, before one arbitrator to be mutually agreed upon by both parties. The parties agree to share equally in the arbitration costs incurred.

## **22. ADDITIONAL TERMS:**

Please review the Devpost Terms of Service at <https://info.devpost.com/terms> for additional rules that apply to your participation in the Contest and more generally your use of the Contest Site. Such Terms of Service are incorporated by reference into these Official Rules, including that the term "Poster" in the Terms of Service shall mean the same as "Sponsor" in these Official Rules." If there is a conflict between the Terms of Service and these Official Rules, these Official Rules shall control with respect to this Contest only.

## **23. ENTRANT'S PERSONAL INFORMATION:**

Information collected from entrants is subject to Devpost's Privacy Policy, which is available at <https://info.devpost.com/privacy>.

For questions, send an email to [support@devpost.com](mailto:support@devpost.com).
